

2 cm

Scientific name of specimen *Fritillaria amana* (Rix) R.Wallis & R.B.Wallis Plantsman n.s. 1(2): 114 (2002).

Collectors name and number Norman Stevens

Date of collection 1982

Collection Locality Turkey: Hatay, above Belen

Habitat/Ecology Exposed ridge in shatted rock formations, 1500 m.

Supplementary data Plant material – Kath Dryden (2006).

In 1993 Mrs. Kath N Dryden submitted 3 bulbs of *F. hermonis* subsp. *amana* to the RHS Wisley Trails. In the spring of 1996 the Rock Garden Trails Committee recommended her entry for a Award of Garden Merit. As the original material was acquired from Norman Stevens at Cambridge Bulbs (UK) the entry is listed as *Fritillaria hermonis* subsp. *amana* 'Cambridge' AGM (H4).

Synonym *Fritillaria hermonis* subsp. *amana* Rix in Kew Bulletin, 29(4): 647 (1974 publ. 1975).
